

Following is the investment objectives / strategies of various debt schemes presently being managed by SBI Mutual Fund:

Scheme Name	Investment objectives	Investment Strategy	Asset Allocation	AUM (Rs. In crores) (as on May 31, 2025)	Folio (as on May 31, 2025)
SBI Corporate Bond Fund	To provide the investors an opportunity to predominantly invest in corporate bonds rated AA+ and above to generate additional spread on part of their debt investments from high quality corporate debt securities while maintaining moderate liquidity in the portfolio through investment in money market securities. However, there is no guarantee or assurance that the scheme's objective will be achieved. The scheme does not guarantee or assure any returns.	The scheme aims to generate attractive returns through high quality corporate debt securities which are rated AA+ and above. Performance will depend on the Asset Management Company's ability to accurately assess the financial position of the security issuers regarding paying off its debt. The investments may be made in primary as well as secondary markets. The portfolio will be sufficiently diversified to minimize credit risk. The Scheme being open-ended, some portion of the portfolio will be invested in money market instruments to meet the liquidity requirements. The scheme will predominantly be actively managed to achieve its investment objective.	Corporate Bonds rated AA+ and above only- 80%-100% Debt instruments other than above including Central and State Government (s) dated securities and Money market instruments- 0%-20% Units of REITs and InVITs- 0%-10%	25,097.73	126004
SBI Credit Risk Fund	To provide the investors an opportunity to predominantly invest in corporate bonds rated AA or below (excluding AA+ rated corporate bonds) so as to generate attractive returns while maintaining moderate liquidity in the portfolio through investment in money market securities.	The scheme aims to generate attractive returns through high-yielding corporate debt securities which are rated below the highest rating. The fund will follow an active credit management strategy. Performance will depend on the Asset Management Company's ability to accurately assess the financial position of the security issuers regarding paying off its debt. The investments may be made in primary as well as secondary markets. The portfolio will be sufficiently diversified to minimize credit risk. The Scheme being open-ended, some portion of the portfolio will be invested in money market instruments so as to meet the liquidity requirements. The scheme will predominantly be actively managed to achieve its investment objective.
