<b>SBI ESG Exclusionary Strategy Fund (previously known as SBI Magnum Equity ESG Fund)</b>	<p>The objective of the scheme is to provide investors with opportunities for long-term growth in capital through an active management of investments in a diversified basket of companies following Environmental, Social and Governance (ESG) criteria using exclusionary strategy.</p> <p>However, there is no assurance that the investment objective of the scheme will be achieved.</p>	<p>SBI ESG Exclusionary Strategy Fund shall follow the following strategy and process for stock selection:</p> <p>Exclusionary/Negative Screening based on adverse impact: The Fund excludes sectors with a negative social connotation like habit forming substances/practices like alcohol, tobacco, gambling and pornography. The fund also excludes controversial weapons that especially include weapons of mass destruction.</p> <p>The strategy will cover the following:</p> <p>i. Characteristic: Social adverse impact</p> <p>ii. Threshold/Conditions for exclusion: The fund shall not invest in companies in the above-mentioned sectors if they derive 5% or more consolidated revenue from such sectors</p> <p>iii. Reference: Ethical or Socially Responsible investors across the world tend to exclude sin stocks, as the companies involved are thought to be making</p>	<ul style="list-style-type: none"> <li>• Equity and equity related instruments following Environmental, Social and Governance (ESG) criteria (including derivatives and foreign securities)– 80% - 100%</li> <li>• Other equity and equity related instruments - 0%- 20%</li> <li>• Units issued by REIT/InVIT - 0% - 10%</li> <li>• Debt instruments (including securitized debt) - 0% - 20%</li> <li>• Money Market Instruments - 0% - 20%</li> </ul>	5,529.56	385,144

money from exploiting human weaknesses and vices. These exclusions may arise from faith-based preferences, or an organisation's own interpretation of ethics or sustainability. The scheme shall use a blended approach and exclude sectors such as alcohol, tobacco, gambling, pornography, and controversial weapons. The scheme shall also exclude the lowest scoring companies on the empaneled ERP's framework that SBIFM subscribes to, at the time of purchase of the security.

Decision-making process for Investing: The Fund will use a SEBI Registered third-party, ESG Ratings Provider for Ratings Reports, and other research to aid the decision-making process.

The ESG ratings provider (ERP) follows a sector agnostic framework and provides weightages to environmental, social and governance pillars, with governance having the highest weight in accordance with the importance provided to the factors by the ERP's methodology. Companies are scored on a scale of 1-100, where 100 is the highest. Under "E" and "S" assessment, the final

score is a combination of company scores and sector scores. The company scores assess a company's material parameters within the "E" or "S" pillars in relation to its peers within a sector, whereas the sector scores indicate how the sector fares relative to other sectors on "E" or "S" parameters. Controversial incidents invite a negative scoring or deflator on the "E", "S" or "G" pillar scores. The methodology of the ERP is available here:

SBI Funds Management also has a proprietary framework which is sector agnostic in construct but provides guidelines to rate parameters based on relevance to the business. Governance is the most highly weighted pillar as SBI FM believes that well governed companies with strong leadership are able to create environmental and social positive value too. SBI FM's ESG rating framework looks at ESG risks based on business activities and the mitigation measures taken by the company to avoid/reduce the impact. This is complemented by controversy tracking and all three components help in arriving at an ESG score. The Responsible

		Investment Policy explains the process in detail.
